Regulation EU No. 2019/1021 on persistent organic pollutants (POP)

We are manufacturer of bare and galvanized semi-finished products (wires).
The product material is copper and copper alloys.

For this semi-finished products the metallic material is relevant only. Our material does not contain POPs (persistent organic pollutants) PFOA (perfluorooctanoic acid and its salts), perfluorooctane sulfonates (PFOS) and polycyclic aromatic hydrocarbons (PAH).

With kind regards

Richard Stenzhorn GmbH
